If government caused delay has prevented compliance with a condition of approval which is due prior to the issuance of a building permit or certificate of completion, the compliance deadline may extended to a specific date. The condition will then be subject to the review requirements of this Section for time certain conditions of approval.

c. Conditions of Approval Requiring The Posting of Performance Security pursuant to Article 12.C.2, Conditions

Part 1. ULDC, Art. 7.B.3, Alternative Landscape Plan (page 11 of 48), is hereby deleted in its entirety and replaced with a new Art. 7.B.3, Alternative Landscape Plan:

CHAPTER B TYPE OF PLANS

Section 3 Alternative Landscape Plan (ALP)

A. Purpose and Intent

An ALP is intended to promote the preservation and incorporation of existing native vegetation or specimen palms or trees, or for the innovative use of plant material and improved site design.

B. Applicability

Any application for a Development Order may be eligible to apply for an ALP.

1. Design Principles

To qualify for consideration an application for an ALP shall demonstrate compliance with the following principles.

- a. Innovative use of plant materials and design techniques in response to unique characteristics of the specific Tier and site.
- b. Preservation or incorporation of existing native vegetation.
- c. Use of a variety of plant material, including plants of color, form, and texture, in excess of minimum requirements.
- d. Incorporation of naturalistic design principles, such as variations in topography, meandering or curvilinear plantings, and grouping of dominant plant materials (trees, large shrubs) in a manner consistent with existing native vegetation.
- e. Integration of landscaping and pedestrian facilities in a manner consistent with the Tier in which the development is located. In U/S Tiers and in TDD's, this may include reduced ground-level planting within the R-O-W buffer if canopy shade trees along sidewalks are provided.
- f. Use of additional shade trees to create a greater canopy effect.
- g. A greater degree of compatibility with surrounding uses than a standard landscape plan would offer, provided the resulting landscape conforms with the design principles and guidelines of this Article.
- h. Use of water-efficient irrigation systems and xeriscaping at appropriate locations.
- i. Incorporation of specific environmental attributes such as soil, hydrology, and vegetative communities unique to the site, and which are compatible with environmental features on adjacent properties.

2. Allowable Modifications to Standards

The standards that can be modified through the use of an ALP are listed below in Table 7.B.3.A-1, Standards That Can Be Altered with an ALP. Any standard not listed herein shall not be eligible to be modified through an ALP.

- b. The ALP meets or exceeds the minimum requirements of this Section, while recognizing the unusual site design or use restraints on the property.
- c. Approval of the ALP will provide for both increased consistency and compatibility with adjacent projects located in the Tier.
- d. The ALP conforms to the requirements of Table 7.B.3.A-1, and no exceptions to the limitations on the standards that may be modified are requested.

2. **Optional Preliminary Meeting**

4. **Appeals**

If an application for an ALP is denied by the DRO or Zoning Division, an applicant may appeal the decision through a Peer Review, as follows: The applicant may select a landscape architect licensed in the State of Florida to certify to the Zoning Division, that the proposed ALP is in compliance with this Article. The Zoning Division shall provide a Peer Review Certification Form for this purpose. Certification shall substitute for a staff determination of consistency with this Article.
